

Collaborative project ICT-248669 supported by the European Community under the 7th Framework Programme (01.02.2010 — 31.01.2013)

INNOVATIVE AERIAL SERVICE ROBOTS FOR REMOTE INSPECTIONS BY CONTACT

The goal of AIRobots is to develop a new generation of aerial service robots capable to support human beings in all those activities which require the ability to interact actively and safely with environments inaccessible by ground robots
